

The Competent Authority

A MONTHLY NEWSLETTER

QUARTER 2

APRIL-JUNE 2023

VOLUME 10

FAREWELL AQUINA PYANNE

We bid our farewells to CA advisor, Aquina Pyanne, and wish her luck in her future endeavors. Thank you Aquina for your work in the RMI CA.

WORLD TUNA DAY 2023

World Tuna Day was a fun-packed event hosted by MIMRA to get people to enjoy activities, learn about sustainable fisheries management, and eat tuna. Activities included competitions for tuna carving, poke making, tuna cooking, and tuna jerky cooking, as well as tuna art auctions and booths from the different embassies showcasing tuna. The event had a great turnout and we wish to see everyone again next year.

NEW INTERNS FOR THE COMPETENT AUTHORITY

We welcome our new summer interns Paulini Maitokana and Roldon Jormelu. These interns were assigned to the CA for their interest in laboratory work and outfield assignments, and will be getting their feet wet this summer at MIMRA.

Meetings

FFC126 & FFCMIN20

This year, the RMI has been assigned as chair to the FFA officials and ministerial meetings. MIMRA took on a large role in hosting these important meetings conducted by the FFA.

Competent Authority officers, Tatiana and Donny, along with CA intern Paulini were assigned as liaisons for three fisheries ministers from the FFA member countries, while CA intern Roldon was assigned as a support staff. It was a busy couple of weeks for the Competent Authority which had the CA manager, Dexter, man the department while these important meetings were taking place.

What's Next?

Please stay tuned for our 2023 events in the next upcoming quarterly newsletters and reports. Thank you for your continued support and cooperation.
